It's Time to Settle in for Winter

It's time to close the windows, turn up the heat, and settle in for snow and cold in Minnesota. We have a few suggestions to make welcoming winter a bit more enjoyable.

NEW COFFEE City Girl Coffee Co - Based in Duluth, MN, City Girl Coffee delivers a variety of flavors

in whole bean, ground, and convenient single-cup servings that are perfect for the office. Great River Office Products recently joined with City Girl to provide our office clients with an easy way to order this great coffee.

There are many reasons why we love City Girl Coffee, but one of our favorites is their packaging for the single-serve cups. Unlike many other single-serve cups, City Girl's are easy to recycle as one whole piece. A great taste and an environmentally friendly cup for simple recycling, what better way to welcome winter than with a great cup of steaming coffee.

NEW OFFICE FURNITURE It's tough to settle in at your desk with a steaming cup of coffee when your desk is an uncomfortable place to work. We've written often about how sitting is the new smoking. It's not good for a person to live such a sedentary life. Great River Office Products has a full-line of cost-effective solutions to helping you convert your traditional sit-only desk to a stand/sit version. Our featured products this month include several Lorell brand add-on desk tops that allow you to raise and lower your computer and workspace to help you and or staff avoid sitting for hours on end. Alternating between sitting and standing increases comfort and productivity. Check out this month's specials. Do you have questions about how to create a more ergonomic work area? We can help. Great River Office Products sales staff members are trained in ergonomics and how to help you make your office a better place to work.

POPCORN! Who can resist the smell of freshly popped popcorn? Not very many people, that's how many. Did you know we sell popcorn machines for the office? We do! Add one to your breakroom complete with bags and popcorn to make everyone feel just a bit better that winter is almost here.

Office Indoor Air Quality and Keeping It Clean

Our newsletter this month is all about making the transition from fall to winter a little more comfortable at the office.

Indoor air quality and keeping germs in-check is important to keeping your staff healthy. Colds and flu spread quickly in small spaces. Indoor allergens and germs can lurk in dirty air ducts making the office air quality poor.

How can you tell if your office needs the air ducts cleaned? A few tell tale signs include:

- Excessive dust on surfaces. If you're noticing dust on surfaces that get cleaned regularly, it's a good sign your air ducts are pumping out more than just clean air.
- Do colds and flu spread like wildfire in your office? Germs get trapped and spread in dirty air ducts.
- Are they more people suffering from allergies this winter than normal? Another sign there could be more than air lurking in your office's duct work are allergies that surface even during the winter months. Mold and other irritants can stay in duct work and spread across the office.

Once you've contacted a commercial duct cleaning company, it's time for you to keep your office in tip top shape for the rest of the season.

Great River Office Products offers a wide range of cleaning products for the office. From dust pans and Lysol wipes to canned air to clean off keyboards, our selection of janitorial and sanitation products is great.

Check out this month's specials for some great deals!

NEW! City Girl Coffee

We are now offering City Girl Coffee! A local Minnesota company, City Girl's mission is to bring awareness and equality to women of the coffee industry. Great coffee and a great mission. Try some today in convenient pods or ground in bags.
